

## Box Rotators

The WIFO 2.5 and 3.5 tons box rotators are of very solid design and will fit most commercial forklifts, pay loaders and front end loaders with Class II and III commercial carriage.

Model: K53a

Model: DKB-25-E

Model: HMD280/2000 with K53a

They all have a rotating turn of 180° to the left and come with or without an integrated side shift. The side shift can move 8" (20 cm) and works with an electric valve which will switch the oil flow from the rotator to the side shift by pushing the button. They are supplied with a heavy duty rotating shaft and industrial type bushings. Models K53a and K53c are available with fixed or folding side arm and models DKB and DKD come standard with folding side arm.

Model: K53a-S

Model: DKD-35

Model: K53a-F

**Optional extras:**

- detachable or fixed top-arm
- commercial tines
- right turning instead of left turning
- a rotating turn of 200° instead of 180°.

**The box rotators are another example of WIFO's outstanding quality and workmanship.**

# Forward Tipping Box Rotators

Model: K80

Model: K85

WIFO's solid manufactured forward tipping box rotators fit almost any commercial or 3 point hitch forklift and articulated loader. They are equipped with quicktach system for Class II and Class III carriages. Both models are available with a 4-hose connection or an electric-hydraulic switch valve.

Model: K75

Model K-75, which has no steel constructions at the sides of the box, is especially designed for telehandlers. It is available with a 4-hose connection or an electric-hydraulic switch valve.

## TECHNICAL DETAILS

### BOX ROTATORS

Model	Capacity	Class	Rotating turn	Weight Fixed	Weight Folding
K53a	2500 kg	II	180°	235 kg	265 kg
K53c	3500 kg	III	180°	310 kg	345 kg
DKB25	2500 kg	II	180°		335 kg
DKD35	3500 kg	III	180°		410 kg

### FORWARD TIPPING BOX ROTATORS

				Weight
K75	1500 kg		110°-180°	390 kg
K75a	2500 kg		110°-180°	650 kg
K80	1500 kg	II/III	135°	480 kg
K85	1500 kg	II/III	180°	585 kg

*Due to ongoing improvements, WIFO products may vary from those illustrated.*

Because a heavy load can easily tip your forklift over, make sure you keep the load low and as close to the forklift as possible while moving and have front or rear of your forklift properly counter balanced with weights. Since the center of gravity is forward of normal, make sure your load is well under the capacity of the forklift.

# TRACTOR FORKLIFTS

For Agricultural, Horticultural & Industrial Use

*A logical and economical answer to your loading and unloading requirements.*

The WIFO forklift's unique design gives you the benefits of a high lift, as well as the advantages of a low retracted height. All WIFO forklifts are equipped with folding tines and tow hitch allowing you to pull wagons etc. without removing the forklift. Forks are easily adjustable to a maximum width of 120 cm (47"). Standard 3 point hitch mounting, on or off your tractor in minutes. WIFO has over 25 years experience in the design and manufacturing of forklifts. All materials used for the production of WIFO forklifts and accessories are of high quality to ensure many years of trouble free operation. The H/2000 models are equipped with double chains, extra rollers, a larger diameter cylinder and the tubing has a heavier wallthickness.

ACCESSORIES: Hydraulic top link cylinder with 25 cm (10") stroke. Side shift moves mast 20 cm (8") to left or right. Box rotator turns 180° left. The H150/1600 is also available in a HF model to fit skid steer or front end loaders.

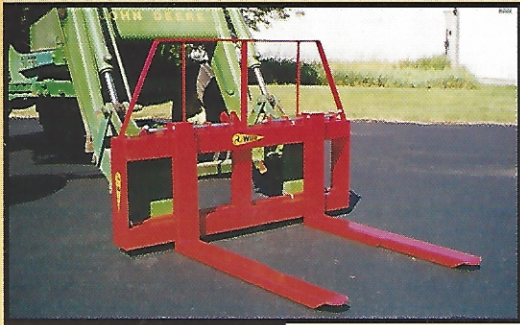

Model	No. of chains	Lifting height		Retracted height		Lifting capacity		Category
		cm	in.	cm	in.	kg	lbs.
